\$4,490  
**OLBIA**

Olbia is designed to keep your house warm 24/7 whilst maintaining a clean burn even when shut down. Easy to operate, the heater produces warm air almost immediately after lighting, and natural convection will distribute air quickly throughout your house. Radiant heat from the optional heat bank gives you warmth for many hours, even after the fire has gone out making the need to burn overnight in most cases, unnecessary. The fresh air intake option makes the Olbia perfect for an energy efficient house.

Heating capacity	280sqm
Efficiency	Aus 70% / Eu 81%
Emissions	1.5g
Wood usage	2kg/hr
Weight	200 kg
Heat bank	Optional 52kg Magnesite \$350
Ember retention	8 hr+
