

BULLER

Buller, designed specifically for the high country, is powerful yet efficient in wood consumption. With a large firebox, the Buller has a very clean burn, and a beautiful view through the landscape style glass window. Easy to operate, the heater produces instant warmth after lighting. Powerful natural convection will distribute warm air quickly throughout your house. Prolonged burning is achieved with larger well-seasoned logs, giving the heater just enough airflow to burn long, clean and efficiently.

National Certificate of Compliance No; H1032/0317

Heating capacity	280sqm
Efficiency	Aus 61% / Eu 76%
Emissions	1.4g
Wood usage	2kg/hr
Weight	158 kg
H(box/pedestal)/W/D	(915/870)/770/527
